SUBJECT INDEX

Abnormal behaviour
Abnormal behaviour in farm mink (abstract) 375
Abnormal behaviour in farmed silver fox vixens (*Vulpes vulpes* L.): tail-biting and infanticide (abstract) 376
Activity patterns
Camping and faeces distribution by Merino sheep 273
Aggression
Aggressive behaviour of grouped sows in different contexts (abstract) 368
Aggressive behaviour
The effects of pregnancy and parity number on behavioural and physiological responses related to the welfare status of individual and group-housed pigs 229
Applied ethology, general
Animal behaviour (book review) 386
Ethology of farm animals: A comprehensive study of the behavioural features of the common farm animals (book review) 385
The behavior of domestic animals (book review) 389
Auditory stimulation
Auditory and social stimulation of newly weaned pigs (abstract) 366
Behavioural problems
Behaviour and abomasal damage in individual veal calves (abstract) 373
Cats
Canine and feline behavioral therapy (book review) 185
Cattle
A note concerning the use of the maternal bond concept (letter to the Editor) 361
Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 41
Behaviour and abomasal damage in individual veal calves (abstract) 373
Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 19
Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 9
Fostering calves by odor transfer 33
Some aspects of cattle behaviour in extensive systems (abstract) 383
The effect of cow–calf separation on the maternal behaviour of the cow (*Bos taurus*) (abstract) 370
The influence of early suckling experience on the occurrence of preputial sucking in veal calves (abstract) 372
The reaction of young bulls to short-haul road transport 309
Corticosteroids
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
The influence of inconsistent handling by humans on the behaviour, growth and corticostereoids of young pigs 245
Defaecation behaviour
Camping and faeces distribution by Merino sheep 273
Dogs
Canine and feline behavioral therapy (book review) 185

Frequency of back-tracking in the tracking dog 353
Spacing and social organization: urban stray dogs revisited 319
Domestication
Evolution of domesticated animals (book review) 181
The paca (*Cuniculus paca*) as a domestic source of protein for the neotropical, humid lowlands 155
Dominance
Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 41
Drinking behaviour
Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 19
Water consumption and time budgets of stabled pony (*Equus caballus*) geldings 1
Farrowing behaviour
Peri-parturient changes in behaviour in free-ranging domestic pigs 69
Fearfulness
Fearfulness of caged laying hens: the effects of cage level and type of roofing 171
Feeding behaviour
Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 41
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 331
Fostering
Fostering calves by odor transfer 33
Fostering in sheep. V. Use of unguents to foster an additional lamb onto a ewe with a single lamb 95
Foxes
Abnormal behaviour in farmed silver fox vixens (*Vulpes vulpes* L.): tail-biting and infanticide (abstract) 376
Genetics
Some observations on the role of environment and genetics in behaviour of wild and domestic forms of *Sus scrofa* (European wild boars and domestic pigs) 253
Goats
A note on activity monitoring as a supplement to estrus detection methods for dairy goats 347
Grazing behaviour
Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 9
Growth
The influence of inconsistent handling by humans on the behaviour, growth and corticosteroids of young pigs 245
Handling
Some aspects of cattle behaviour in extensive systems (abstract) 383
Heat tolerance
Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 9
Horses and ponies
Hoofbeats and society: Studies in human-horse interactions (book review) 183
Self-grooming by mares and foals of the Welsh pony (*Equus caballus*) 197

Water consumption and time budgets of stabled pony (*Equus caballus*) geldings 1
Housing
Dust-bathing of hens with and without access to sand (abstract) 380
Inter-indidivual distances in the domestic hen (abstract) 381
Stimulus requirements of housed pigs assessed by behavioural demand functions (abstract) 369
Housing and accommodation
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
Effect of housing on open-field test behavior of gestating gilts 83
Fearfulness of caged laying hens: the effects of cage level and type of roofing 171
Some observations on the role of environment and genetics in behaviour of wild and domestic forms of *Sus scrofa* (European wild boars and domestic pigs) 253
The effect of straw bedding on the behaviour of sows and their newborn piglets (abstract) 365
The effects of pregnancy and parity number on behavioural and physiological responses related to the welfare status of indivual and group-housed pigs 229
The effects of two confinement systems on the performance of nursing sows and their litters 51
Human handling
The influence of inconsistent handling by humans on the behaviour, growth and corticosteroids of young pigs 245
Maternal behaviour
The effect of cow–calf separation on the maternal behaviour of the cow (*Bos taurus*) (abstract) 370
Maternal bonding
A note concerning the use of the maternal bond concept (letter to the Editor) 361
Ability of 12-hour-old Merino and crossbred lambs to recognise their mothers 263
Changes in maternal–young associations with increasing age of lambs 305
Mink
Abnormal behaviour in farm mink (abstract) 375
Mongoose
The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 331
Motor activity
A note on activity monitoring as a supplement to estrus detection methods for dairy goats 347
Motor patterns
Effect of housing on open-field test behavior of gestating gilts 83
Oestrus detection
A note on activity monitoring as a supplement to estrus detection methods for dairy goats 347
Olfactory cues
Fostering in sheep. V. Use of unguents to foster an additional lamb onto a ewe with a single lamb 95
Fostering calves by odor transfer 33
Pain
How can we tell if a sheep is in pain? (abstract) 374
Pigs
Aggressive behaviour of grouped sows in different contexts (abstract) 368
Attraction to blood as a factor in tail-biting by pigs 61

Auditory and social stimulation of newly weaned pigs (abstract) 366
Comment of the Editor-in-Chief 179
Effect of housing on open-field test behavior of gestating gilts 83
Effects of rearing conditions on the behaviour of gilts around farrowing (abstract) 367
Etiology and stereotyped behaviour in pig husbandry 177
Hunger as a cause of stereotypic behaviour in tethered sows (abstract) 377
Individual differences among mature boars in T-maze preference for estrous or non-estrous sows 77
Peri-parturient changes in behaviour in free-ranging domestic pigs 69
Some observations on the role of environment and genetics in behaviour of wild and domestic forms of *Sus scrofa* (European wild boars and domestic pigs) 253
Stimulus requirements of housed pigs assessed by behavioural demand functions (abstract) 369
The adrenal response to chronic stress is modified by individual differences in adrenal function of pigs (abstract) 378
The effect of straw bedding on the behaviour of sows and their newborn piglets (abstract) 365
The effects of pregnancy and parity number on behavioural and physiological responses related to the welfare status of individual and group-housed pigs 229
The effects of two confinement systems on the performance of nursing sows and their litters 51
The influence of inconsistent handling by humans on the behaviour, growth and corticosteroids of young pigs 245

Poultry
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
Dust-bathing of hens with and without access to sand (abstract) 380
Fearfulness of caged laying hens: the effects of cage level and type of roofing 171
Inter-individual distances in the domestic hen (abstract) 381
Second European Symposium on Poultry Welfare (book review) 392

Predation control
The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 331

Production
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 19
Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 9

Rank order
Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 139
Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 19
Formation of feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 9

Rearing conditions
Effects of rearing conditions on the behaviour of gilts around farrowing (abstract) 367

Resting behaviour
Camping and faeces distribution by Merino sheep 273

Rodents
The paca (*Cuniculus paca*) as a domestic source of protein for the neotropical, humid lowlands 155
Sampling techniques
Methods of sampling and analysis of data in farm animal ethology (book review) 184
Self-grooming behaviour
Self-grooming by mares and foals of the Welsh pony (*Equus caballus*) 197
Sexual attractiveness
Differences in the sexual "attractiveness" of oestrous ewes to rams 129
Physical and behavioural factors affecting the sexual "attractiveness" of the ewe 109
The influence of factors associated with oestrus on the sexual "attractiveness" of ewes to rams 117
Sexual behaviour
Development and use of a method for quantifying female sexual behaviour in ewes 289
Differences in the sexual "attractiveness" of oestrous ewes to rams 129
Individual differences among mature boars in T-maze preferences for estrous or non-estrous sows 77
Physical and behavioural factors affecting the sexual "attractiveness" of the ewe 109
The influence of factors associated with oestrus on the sexual "attractiveness" of ewes to rams 117
Sheep
Ability of 12-hour-old Merino and crossbred lambs to recognise their mothers 263
Camping and faeces distribution by Merino sheep 273
Changes in maternal-young associations with increasing age of lambs 305
Development and use of a method for quantifying female sexual behaviour in ewes 289
Differences in the sexual "attractiveness" of oestrous ewes to rams 129
Fostering in sheep. V. Use of unguents to foster an additional lamb onto a ewe with a single lamb 95
How can we tell if a sheep is in pain (abstract) 374
Physical and behavioural factors affecting the sexual "attractiveness" of the ewe 109
Social behaviour of hill sheep; more to it than meets the eye (abstract) 382
The influence of factors associated with oestrus on the sexual "attractiveness" of ewes to rams 117
To butt or not to butt: suckling tactics in lambs (abstract) 371
Social behaviour
Social behaviour of hill sheep; more to it than meets the eye (abstract) 382
Social organization
Spacing and social organization: urban stray dogs revisited 319
Social stimulation
Auditory and social stimulation of newly weaned pigs (abstract) 366
Spacing behaviour
Spacing and social organization: urban stray dogs revisited 319
Stereotyped behaviour
Hunger as a cause of stereotypic behaviour in tethered sows (abstract) 377
Stereotypies
Comment of the Editor-in-Chief 179
Developmental study of the effect of haloperidol and naloxone on captivity-induced stereotypies (abstract) 379
Etiology of stereotyped behaviour in pig husbandry 177
Stress
The adrenal response to chronic stress is modified by individual differences in adrenal function of pigs (abstract) 378

The influence of inconsistent handling by humans on the behaviour, growth and corticosteroids of young pigs 245
The reaction of young bulls to short-haul road transport 309
Suckling
The influence of early sucking experience on the occurrence of preputial sucking in veal calves (abstract) 372
To butt or not to butt: suckling tactics in lambs (abstract) 371
Tail-biting
Attraction to blood as a factor in tail-biting by pigs 61
,Taste aversion
The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 331
Tracking
Frequency of back-tracking in the tracking dog 353
Transport
The reaction of young bulls to short-haul road transport 309
Welfare
Second European Symposium on Poultry Welfare (book review) 392
The effects of pregnancy and parity number on behavioural and physiological responses related to the welfare status of individual and group-housed pigs 229
